Maurice Lévy, Chairman and Chief Executive Officer of Publicis Groupe comments:

"The year was something of a paradox for the Publicis Groupe.

While our marketplace experienced a double-digit downturn, we were able to stop the slide and cut it by half, thus actually gaining market share.

The economic environment worldwide was characterized by constant crisis of unprecedented proportions. In our industry, it manifested itself by a shrinking of the advertising market, which, month after month, caused us to reduce our outlook by as much as 12% to 14%. That left us few options but to manage on a short-term basis, making constant corrections that nevertheless kept us on course to pursue our long-term strategy.

The upheaval in our industry was generated not only by macroeconomic factors; it was also the product of changing dynamics in the communications business.

This included the rapid development of digital technologies, the explosion of social networks and other forms of communication, accentuating the shift in the media landscape and accelerating the pace of changes in consumer behavior.

What has all this meant for the Groupe?

A decline in organic growth, yet one limited in our case by an improved performance in New Business. Thus, while the market overall was down by 12% to 14%, Publicis managed to limit the decrease to 6.5%, thereby gaining market share. Tight control over our costs and headcount; services with added value; these are some of the reasons why we were able to achieve an operating margin which remains one of the highest on the market despite the crisis.

We can also report an exceptionally sound balance sheet, coupled with a significant reduction in debt, a high level of liquidity, and a debt/equity ratio of 0.14.

So it would be no exaggeration to say that Publicis has weathered the crisis well, containing its negative impacts on both margin and growth, while, at the same time, taking strategic initiatives to make the most of the recovery. Our performance in New Business and the market share gained in 2009 will bear fruit fairly rapidly.

I would like to thank our clients who were at once more demanding and yet even more confident in placing their trust in us. Our employees, in every sector and in every corner of the world, redoubled their efforts and proved their talent, creativity, innovation and dedication despite a freeze on pay and recruitment (selective, to ensure we remain highly competitive). Thank you, all of you; once again, you made all the difference.

After massive investments in digital in the recent past, made with an eye to the future, Publicis has now added to its strengths with the acquisition of Razorfish. Our aim is eventually to derive a total of 60% of our revenue from the two sectors of digital activities and emerging economies.

As already announced, we are seeing a steady and continuing increase in our numbers starting last summer, and the trend continued in January 2010. Our objective is to return to positive organic growth, outperforming the market once again, in 2010. We are continuing to invest in talent and technology and are aiming to maintain our margins prior to embarking in 2011 on a new phase of margin growth."

ANALYSIS OF KEY FIGURES

2009 activity

As expected, after the advertising market reached its low point in 2009 during the summer, the decline, which had been gathering pace since mid-2008, began to slow, and then stopped. The fourth quarter brought an improvement, confirming the first signs of recovery.

While the second half-year benefits from comparison against a weak second half during the previous period, and although the recovery is still only very gradual, the renewed activity of advertisers seems to be real.

2009 revenue

Consolidated revenue for 2009 was **€4,524 million, compared with €4,704 million** in 2008, i.e. down 3.8 %. (Exchange rate impact was 28 million euros).

Organic growth was -6.5% but, without General Motors, would have been -5.3%.

Digital Services continued to grow rapidly, achieving 7.1% organic growth. If the negative impact of General Motors were factored out, organic growth would have reached 11.9%. Digital activities accounted for 22.4% of total revenue. Specialized Agencies and Marketing Services (SAMS), including all digital activities, accounted for 44% of 2009 consolidated revenue compared to 35% for advertising and 21% for media.

Revenue from emerging economies integrating high-growth countries represented 22.5% of the Groupe's total revenue in 2009 (excluding Razorfish).

Breakdown of 2009 revenue by region:

2009 revenue breaks down by region as follows:

(€ million)	Reve	Organic growth		
	2009	2008		
Europe	1,579	1,805	- 9.9%	
North America	2,094	2,008	- 4.2%	
Asia-Pacific	499	519	- 7.7%	
Latin America	218	238	- 0.6%	
Africa and Middle East	134	134	- 4.0%	
Total	4,524	4,704	- 6.5%	

Without exception, all regions were adversely affected by the economic crisis already in evidence in the last quarter of 2008 but which gradually worsened until it peaked in the second quarter of 2009. Europe was very severely hit, particularly southern Europe where revenue fell by over 15%.

North America fell 4.2% but held up well due to the high proportion of digital services in the region (34.6% of the Groupe's revenue in North America).

Factoring out the impact of the GM bankruptcy, the Groupe would have posted organic growth of -1.2% for North America, with Digital Services alone achieving +15.3% organic growth.

Asia-Pacific, on the other hand, experienced a sharp downturn in activity, but showed a marked improvement in the last quarter.

Latin America fared well, due largely to Brazil.

Finally, Africa and the Middle East were penalized by the severe financial crisis in Dubai.

2009 revenue in US dollars would be \$6,287 million, down 8.9% on last year. In GBP, revenue would be £4,029 million, an increase of 7.9%.

Revenue in the 4th quarter of 2009

Consolidated revenue in the 4th quarter of 2009 stood at €1,268 million, down 7.6% from €1,373 million for the corresponding period in 2008. The exchange rate impact was negative by 86 million euro.

Organic growth was -5.4% for the last quarter, a net improvement on the third quarter (-7.4%). Excluding GM, the reduction was 4.6%

Breakdown of 4th quarter revenue by region

Revenue in Q4 2009 breaks down as follows:

(€ million)	Reve	Revenue			
	4 th quarter 2009	4 th quarter 2008			
Europe	483	521	-7.5%		
North America	545	585	-4.0%		
Asia-Pacific	146	152	-2.8%		
Latin America	51	65	-1.7%		
Latin America Africa and Middle East	43	50	-12.1%		
Total	1,268	1,373	-5.4%		

Operating margin

Operating margin before depreciation and amortization of €772 million in 2009 represented 17.1% of revenue, and was down 13.2% from €889 million in 2008.

Operating margin was €680 million, 15% of revenue in euros, down 13.4% on 2008.

Personnel expenses totaled €2,812 million, compared with €2,852 million in 2008, i.e. down 1.4% and equivalent to 62.2% of total consolidated revenue. Major efforts were made during this period of markedly slower activity and, after eliminating acquisition effects, personnel expenses in 2009 were down 4.9% on those of 2008 (stated at the 2009 exchange rates).

Other operating expenses totaled €940 million, a decrease of 2.4% by comparison with 2008, despite the higher occupancy-related costs (rent and charges), thanks to continued optimization efforts. When acquisition effects are factored out, total operating costs in 2009 fell 5.1% by comparison with 2008 (restated at 2009 exchange rates).

The percentage operating margin was 15.0% in 2009. This percentage margin is down on 2008 and reflects the adjustments and restructurings implemented in 2009, whether due to the downturn in revenue or to longer-term restructuring operations.

Restructuring costs amounted to €80 million for 2009. Ongoing efforts to control costs throughout the Groupe made it possible to absorb the costs of integrating various acquisitions and of accelerating the rollout of digital activities worldwide.

The Groupe secured its operating margin by optimizing various operating expenses and by controlling investments.

Net income

After a net financial expense of €70 million, a tax charge of €146 million, share of profit of associates (accounted for by the equity method) of €4 million and minority interests of €14 million, net income attributable to the Groupe stood at €403 million, compared to €447 million in 2008.

Free Cash Flow (excluding change in Working Capital Requirements)

The Groupe's free cash flow, excluding changes in working capital requirements (WCR), was €524 million for the period.

Net financial debt

Net financial debt was reduced by €283 million (a reduction of 42%), from €676 million at December 31, 2008 to €393 million at December 31, 2009.

The Groupe's average net debt at December 31, 2009 was also down sharply at €929 million, from €1,102 million at December 31, 2008.

Available liquidity at the end of the year stood at €3.7 billion.

Shareholders' equity

Consolidated shareholders' equity including minority interests was €2,838 million at December 31, 2009 compared with €2,350 million at December 31, 2008.

At December 31, 2009, the debt/equity ratio was **0.14** compared with **0.29** at December 31, 2008.

HIGHLIGHTS OF 2009

Awards/creativity

On the creative side, the Groupe equaled its performances of recent years.

Publicis Groupe has occupied the Gunn Report's top spot for Creative Performance without interruption since 2004.

At the Cannes Lions 56th International Advertising Festival, Publicis Groupe won one Grand Prix and 110 Lions including 21 Gold, 25 Silver and 46 Bronze.

The Groupe was also highly successful at the Clio Awards, the prestigious international advertising competition, with 54 awards (13 Gold, 11 Silver and 30 Bronze).

Last but not least, Publicis Groupe took 84 awards at The One Show, including 3 Gold, 5 Silver and 8 Bronze awards.

Publicis Groupe entities were awarded top prizes in all major advertising sector festivals, particularly the Effie Awards, FIAP (Festival Iberoamericano de la Publicidad), Eurobest, New York Festival Awards, Valencia Festival of Media, Asian Marketing Effectiveness Awards, Andy Awards, D&AD, ANA Awards, El Ojo de Iberoamerica Festival, Telly Awards, Sabre Awards, European Excellence Awards, Manny Awards, Clio Healthcare Awards, Epica, Dubai Lynch, CMAs, OMMAs, Media Spikes Asia, Golden Drums, Asia Pacific Advertising Festival, etc.

Four agencies received "Agency of the Decade" awards: BBH (BestAds Agency of the Decade), Saatchi & Saatchi Australia (Campaign Brief), with Saatchi & Saatchi New Zealand ranked second best Agency of the Decade (Campaign Brief). Adweek also ranked Starcom MediaVest Group best media agency of the decade.

In addition, Publicis Groupe agencies carried off 9 "Agency of the Year" awards.

Employee stockholding

Significantly, despite the very uncertain economic environment and the instability in the advertising market, 136 key executives at Publicis Groupe opted to subscribe to a proposed co-investment program. At the same time, the Groupe also decided to issue 50 free shares to all members of staff, beginning with a program in France in 2009 before implementing the program worldwide over the next two years. These decisions clearly illustrate the commitment of the key executives to the Groupe and that of the Groupe towards all its employees.

New Business

2009 was a very good year for account wins with net new business totaling \$6 billion, thus confirming the attractiveness and competitiveness of Publicis Groupe's offering and placing the Groupe well ahead of all its competitors (as ranked by Nomura, Goldman Sachs and JP Morgan).

External growth

In line with its strategy of focusing development on high-growth activities, particularly in digital communication services, while adding to its network of specialized agencies, Publicis Groupe pursued an active policy of external growth in 2009.

Digital Services acquisitions:

The acquisition from Microsoft of Razorfish, the world's N°2 interactive agency (the leader, Digitas, is already owned by Publicis), was closed on October 13, 2009, consolidating the Groupe's leadership in digital services for the future while bringing in new digital skills and adding to our portfolio of blue-chip clients.

Following the closing, the two groups also signed a strategic alliance agreement enabling Microsoft to broaden its offering and Publicis Groupe to provide its clients with access to very attractive offers. Under the terms of this agreement, VivaKi and Microsoft will provide the Groupe's clients with higher added value and greater efficiency in all aspects of digital services, whether in terms of content, performance or audience.

In early April, Publicis Groupe acquired **Nemos**, the leading interactive communications agency in Switzerland. The acquisition was motivated by the Groupe's ongoing strategic commitment to offering digital services.

On September 1, Publicis Groupe acquired **Unilever's CRM program** *Pour Tout Vous Dire*. Publicis emerged from this acquisition with one of the four leading multi-brand CRM platforms in the consumer goods business in France. Initially designed to add value to 30 Unilever brands spanning beauty, hygiene, food products and services, the program currently covers more than 5 million households, including 2 million customers on an online basis.

Pour Tout Vous Dire offers a benchmark e-CRM platform for showcasing brands and fostering interaction with consumers. It will gradually be rolled out to all consumer retail brands and fast moving consumer goods and thus made available to other advertisers.

Other acquisitions

In May, Publicis Groupe announced the acquisition of its long-term affiliate **Publicis MARC**, the Bulgarian integrated communications agency. The Sofia-based agency joined the Publicis Worldwide global network.

In early September, Publicis Groupe announced its acquisition of a majority stake in the **Women's Forum for the Economy and Society**. Founded in 2005, this is an independent global women's forum. In 2009, the Women's Forum numbered 1,200 participants from 90 countries. The shared goal is to expand the scope of the Forum meetings as of 2010 to eventually cover all world regions.

These initiatives bear witness to Publicis Groupe's ability to anticipate market developments in order to meet its clients' new needs, provide the solutions consumers expect, and thus assure the Groupe's growth.

Finance

In the midst of the liquidity crisis, and as part of its endeavor to preserve the Groupe's financial strength and capacity, on June 24, 2009, Publicis Groupe S.A. launched a €719 million convertible bond issue that will mature in 2014. Moreover, in December 2009, the company issued an offer to exchange its 2012 Eurobonds with a view to the issuance of new 2015 bonds. The purpose of these two transactions was to extend the company's resources over a longer period.

2010

Recent events

January 2010 saw the early redemption at the holders' option of outstanding 2018 Oceane convertible bonds. According to the 2018 Oceane prospectus, any holder was entitled to request early redemption of all or part of its Oceane bonds at the early redemption price of €45.19 per bond. At the early redemption date, i.e. January 18, 2010, a total of 617,985 Oceane bonds were repaid early for a total amount of €28 million.

The number of these Oceane bonds outstanding is 2,624,538, representing 14.9% of the number initially issued (17,624,521).

Furthermore, in view of the authorization granted by the Combined Annual General Meeting of the shareholders on June 9, 2009, Publicis Groupe SA entered into an agreement on January 8, 2010, with an authorized intermediary, with a view to purchasing 2.7 million Publicis Groupe shares. This authorization was granted for a period of eighteen months from June 9, 2009, i.e. until December 8, 2010.

New Business

The early part of 2010 continues to be dynamic with more new accounts being won.

Since January 1, the Groupe is proud to number Chrysler, Aviva and Turner Broadcasting among its new clients.

OUTLOOK

Despite the still difficult global context and economic uncertainties, Publicis Groupe can confirm an improvement in its key figures since the summer of 2009, with a more rapid return to growth in the emerging economies. The recovery in the developed economies is proving slower and more gradual.

These trends should accelerate towards the middle of the year.

While the strategy implemented in recent years has enabled the Groupe to weather the crisis much better than the market as a whole, Publicis Groupe has decided for 2010 to equip itself with necessary additional means required to better prepare the future.

In this perspective, and during the quarters to come, the Groupe will continue its growth and transformation by integrating its digital activities as a core business, by investing in businesses and regions where growth and value are to be found. The Groupe also intends to continue investing in talent while optimizing costs, notably by the development of shared service platforms, the deployment of ERP worldwide and the reconfiguration of information systems.

The Groupe has set itself the medium-term goal of expanding its digital activities and its positions in high-growth countries with the aim of generating the bulk of its total revenue from these two segments, in order to return to, or even surpass, the levels of percentage operating margin it enjoyed before the financial crisis.

The Groupe's financial situation is very solid, with sufficient liquidity for its future development.

New business won in recent years, and particularly in 2009, demonstrates the dynamism and attractiveness of Publicis Groupe, as well as its commitment to its clients which permitted it to win increased market share. It is these qualities that will enable Publicis Groupe to achieve positive organic growth in 2010, and greater than that predicted for the market as a whole.

About Publicis Groupe

Publicis Groupe [Euronext Paris: FR0000130577] is the world's fourth largest communications group. In addition, it is ranked as the world's second largest media agency, and is a global leader in digital and healthcare communications. With activities spanning 104 countries on five continents, the Groupe employs approximately 45,000 professionals. Publicis Groupe offers local and international clients a complete range of advertising services through three global advertising networks, Leo Burnett, Publicis, Saatchi & Saatchi, and two multi-hub networks, Fallon and 49%-owned Bartle Bogle Hegarty. Media consultancy and buying is offered through two worldwide networks, Starcom MediaVest Group and ZenithOptimedia; and interactive and digital marketing led by Digitas and Razorfish. Publicis Groupe launched VivaKi to leverage the combined scale of the autonomous operations of Digitas, Razorfish, Starcom MediaVest Group, Denuo and ZenithOptimedia to develop new services, tools, and next generation digital platforms. Publicis Groupe's Specialized Agencies and Marketing Services offer healthcare communications, corporate and financial communications, sustainability communications, shopper marketing, public relations, CRM and direct marketing, event and sports marketing, and multicultural communications. ⁽¹⁾ In 2007 and 2008, both the OCEANE 2008s and 2018s are factored into the calculation; however, the OCEANE 2008s only appear in the calculation of diluted net income for the period January 1 to July 17, 2008 as they were redeemed on maturity at the latter date.

(3)

Redemption of the OCEANE 2008 in July 2008 automatically led to the elimination of 23,172,413 potentially dilutive shares. Conversely, the issue in June 2009 of a new OCEANE maturing in 2014 involved the creation of 25,761,647 potentially dilutive shares.

⁽²⁾ Only the restricted stock, stock options and warrants with a dilutive effect (i.e., whose exercise price is lower than the average share price for the year) enter into the calculation.

⁽¹⁾ EPS before amortization of intangibles arising from acquisitions, impairment, capital gains (losses) on disposal of land and buildings, and deferred tax asset on the OCEANE 2014S.

In January 2010, the company purchased 617,985 OCEANE 2018 bonds in the partial exercise of a put, thus eliminating an equivalent number of potentially dilutive shares.

⁽²⁾ Effect of the deferred tax asset recognized in an amount equal to the deferred tax liability recognized on the equity portion of the OCEANE 2014S.
